Zoe Visual Guide Collection

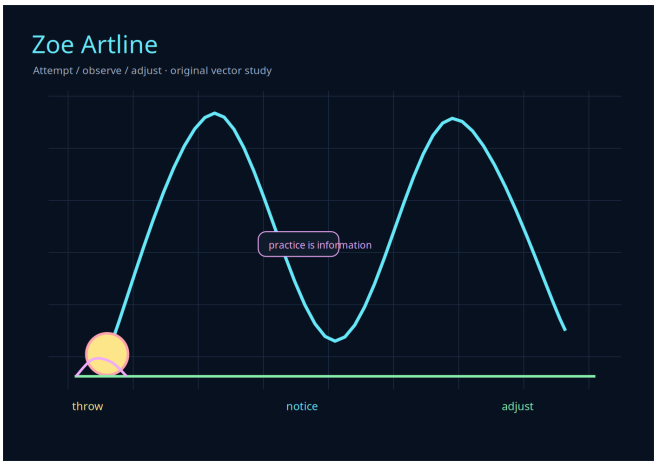

Zoe / allgems

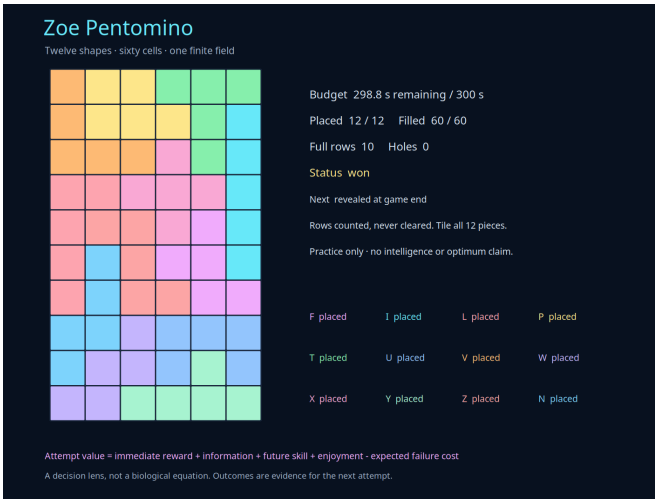

Every top-level Zoe guide has a visual PDF edition with its full text, native screenshots, original diagrams, equations, code blocks, and source notes. The collection also includes the Cognitive Field visual-provenance appendix.

The PDF links below work in this Markdown index and in the collection index PDF. The original five-page Practice Navigator artbook is preserved separately.

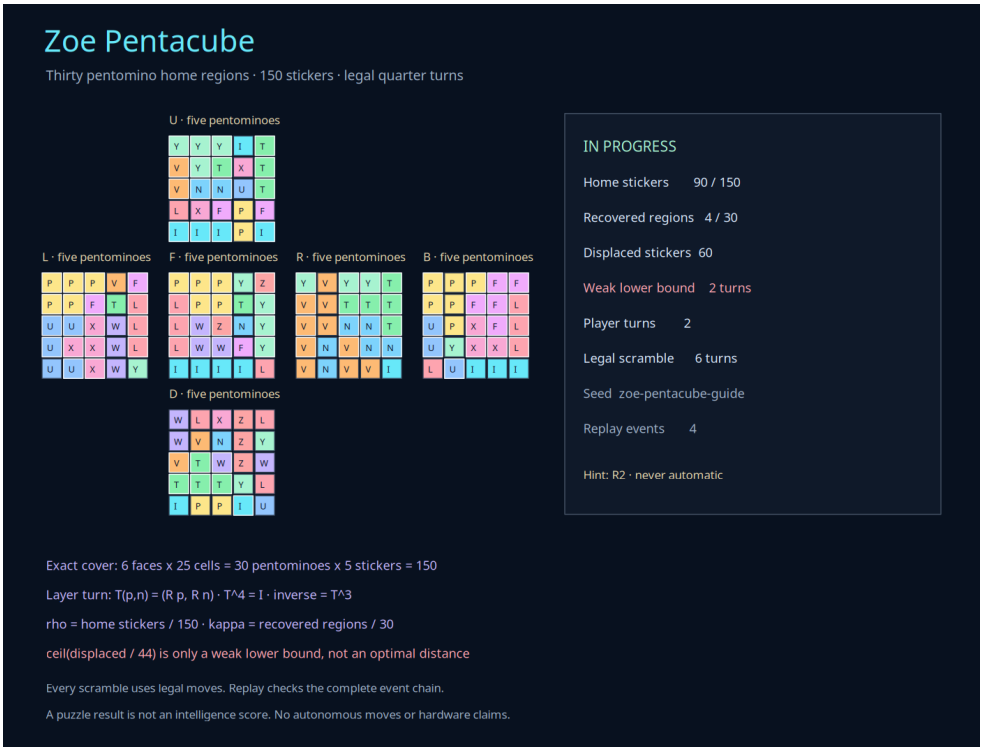

Create and play

Zoe Artline · Zoe Pentomino

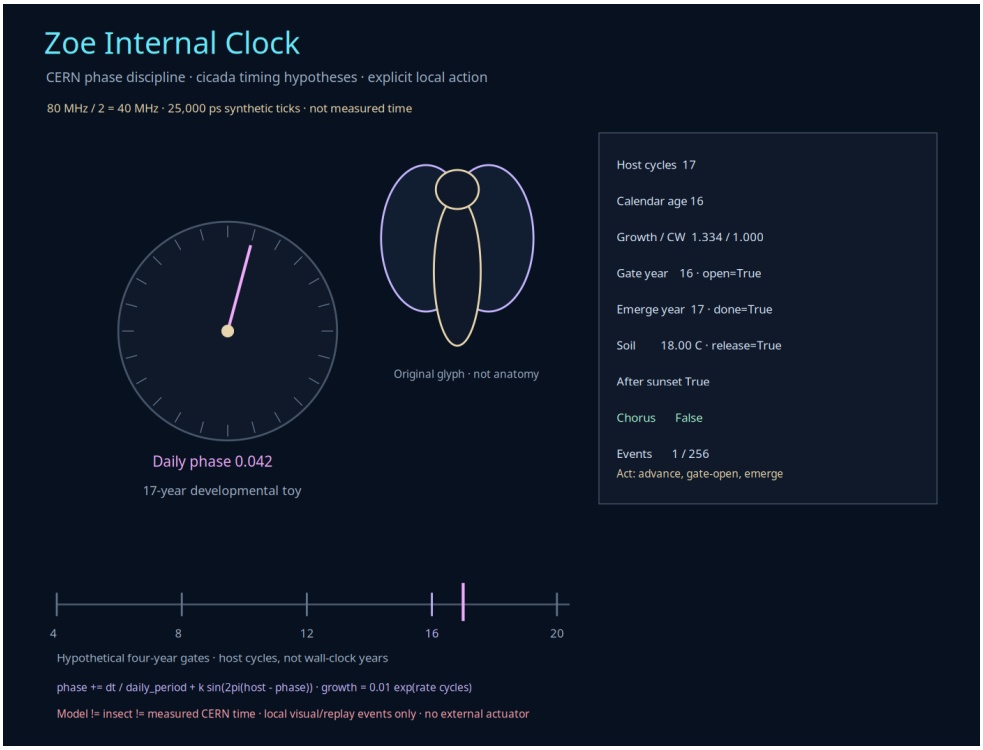

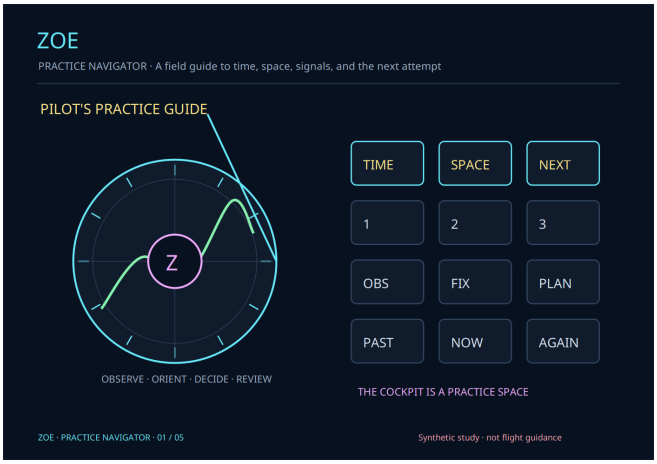

Zoe Pentacube

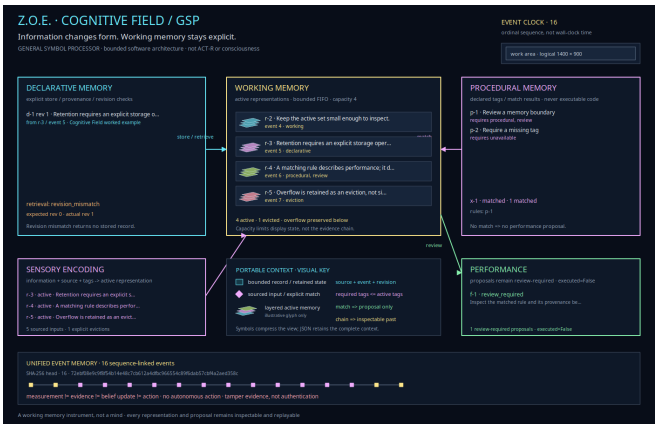

Zoe Internal Clock

Zoe Practice Navigator · Cognitive Field

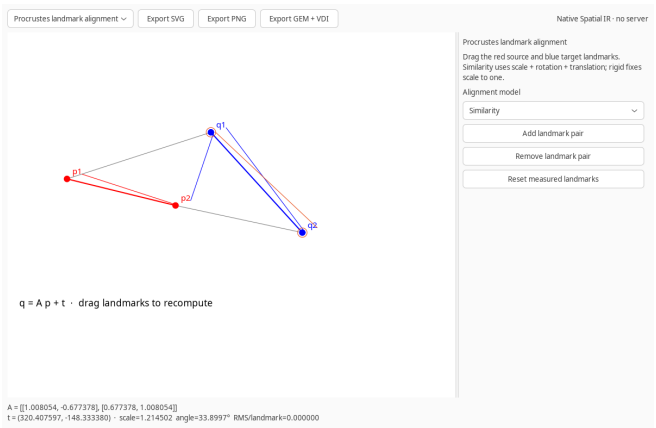

Geometry and evidence

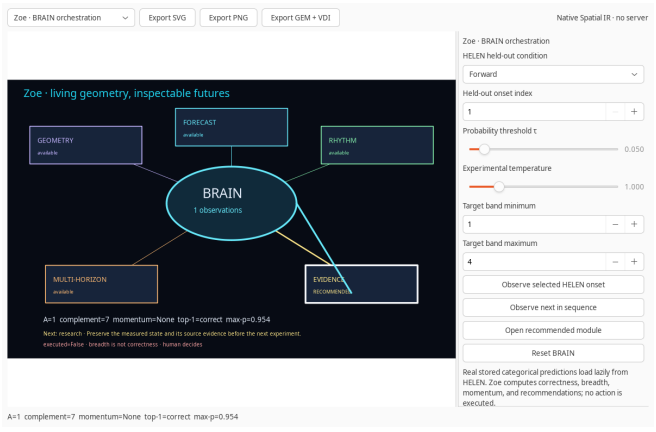

Zoe is Quale. Zoe is Red. · GEM Geometry Atlas

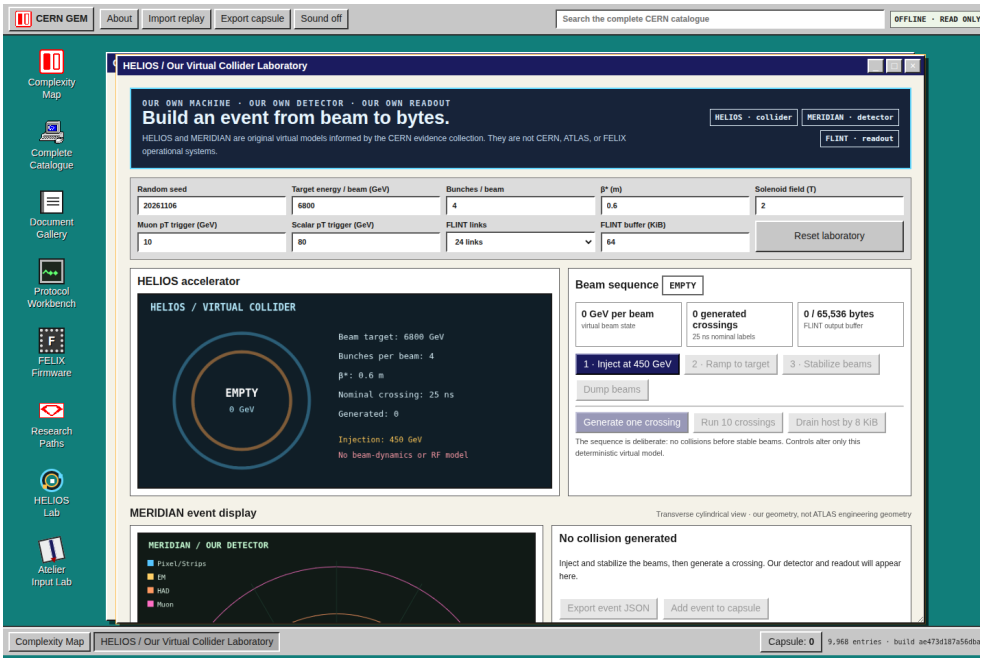

Unified architecture and verification · Zoe: living geometry, inspectable futures

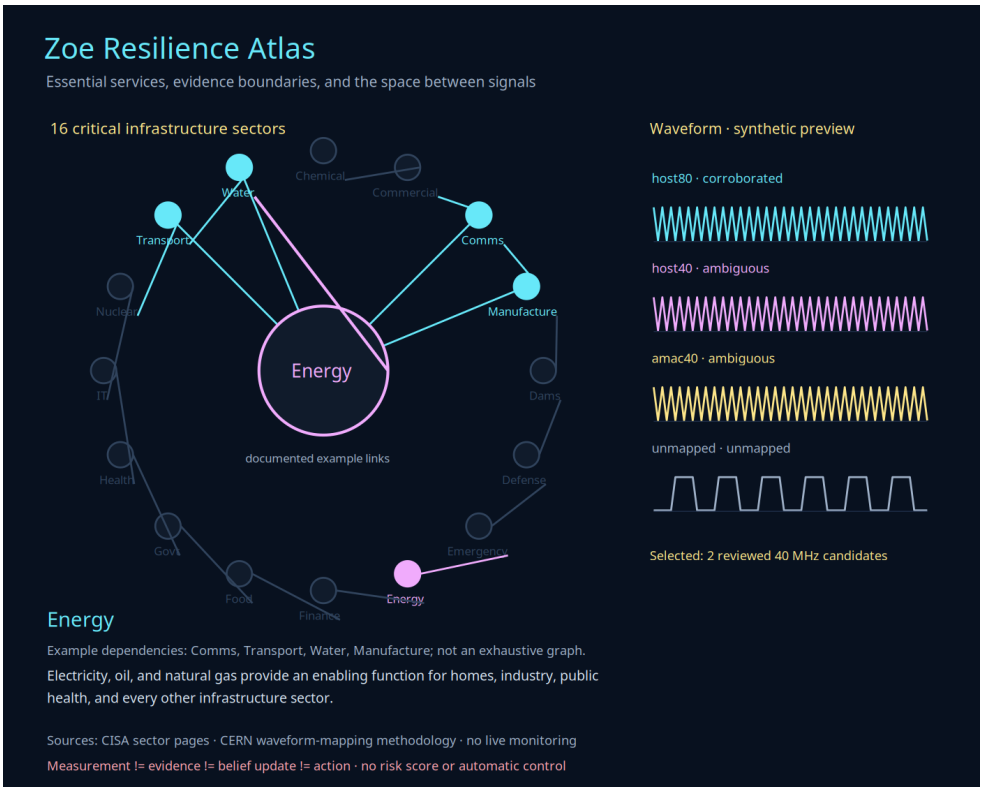

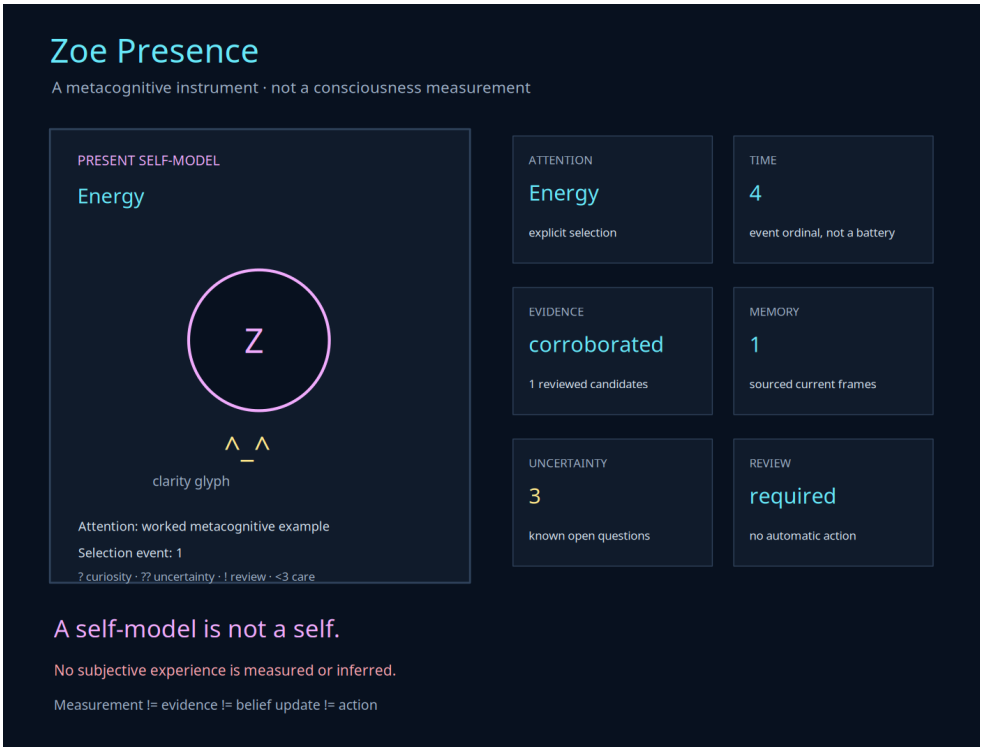

Zoe CERN Workbench

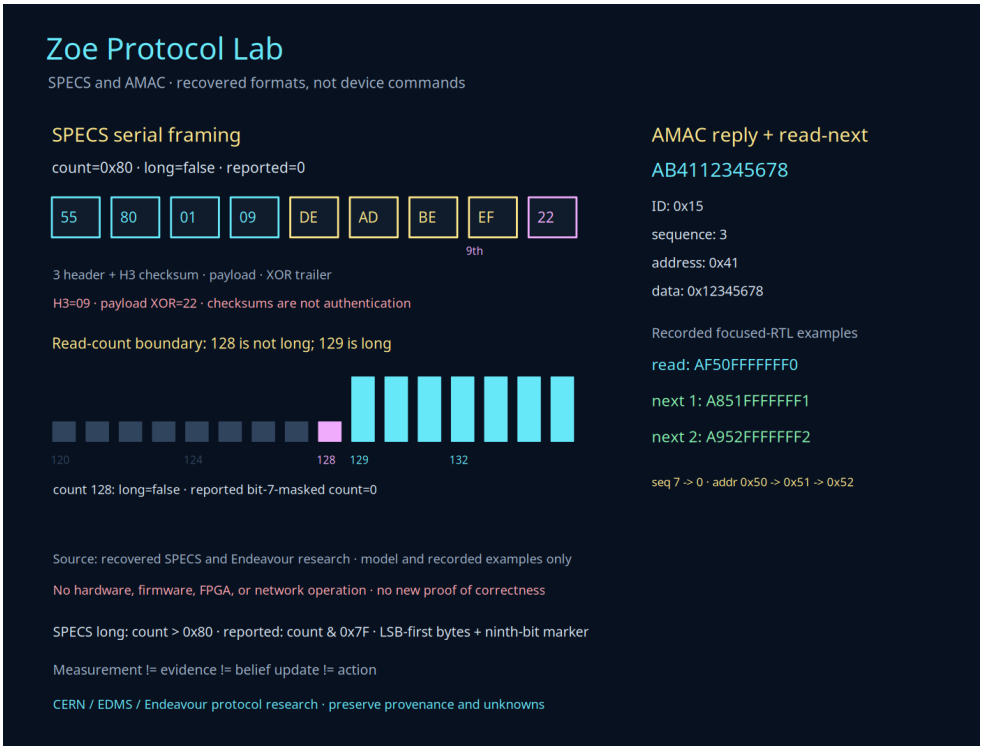

Zoe Resilience Atlas

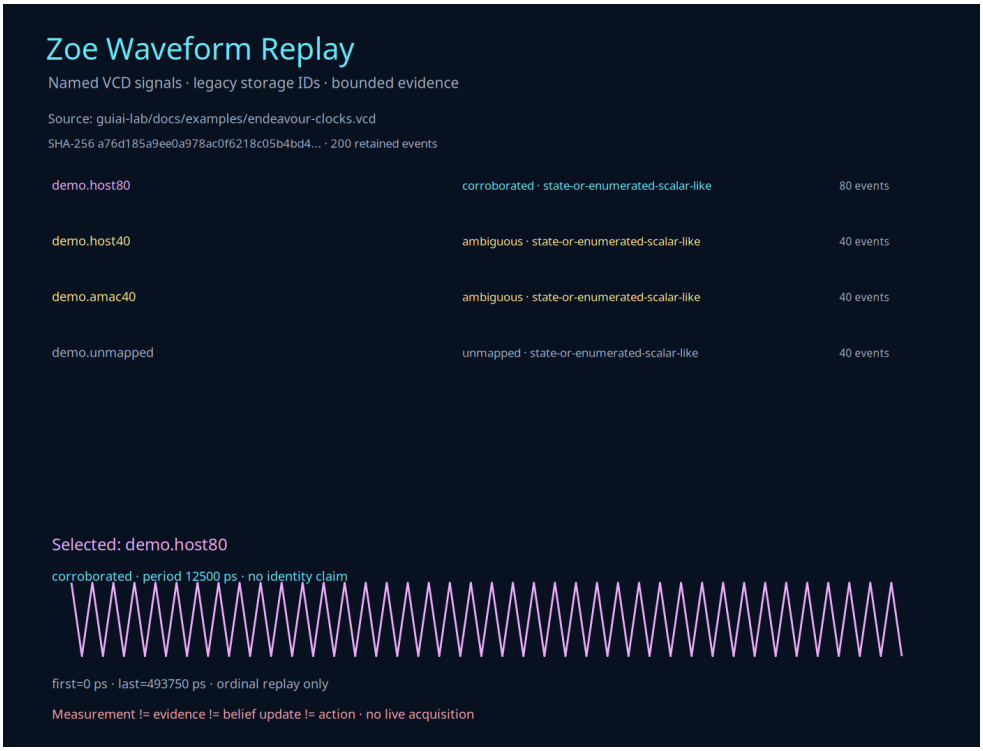

Zoe Presence

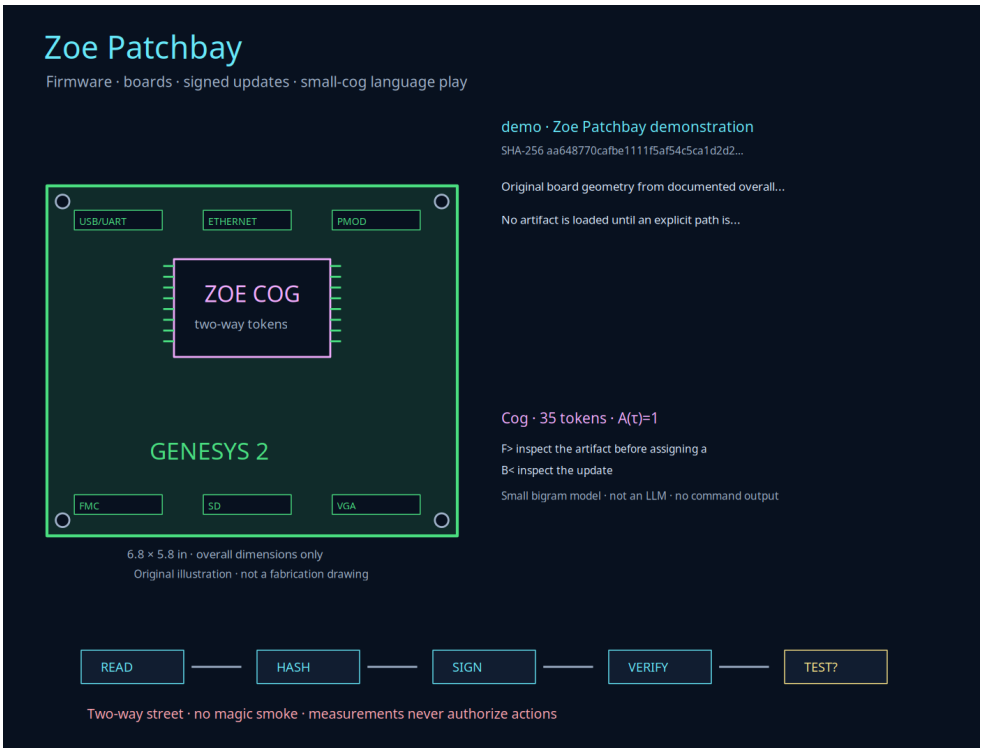

Zoe Protocol Lab

Zoe Waveform Replay

Zoe Patchbay

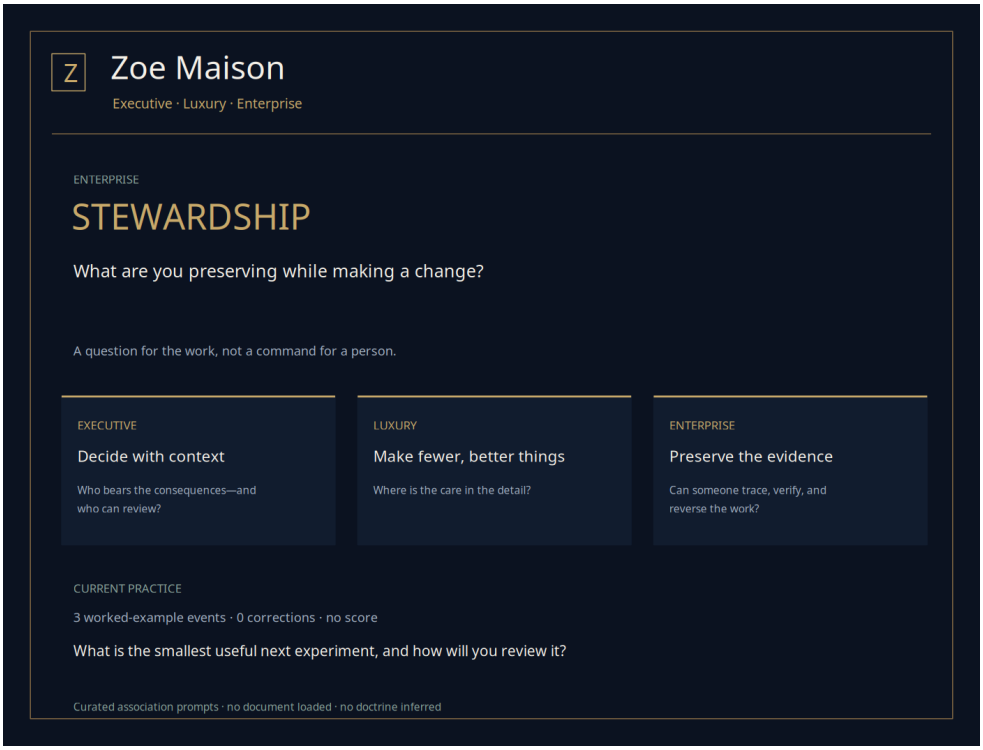

Practice and adaptation

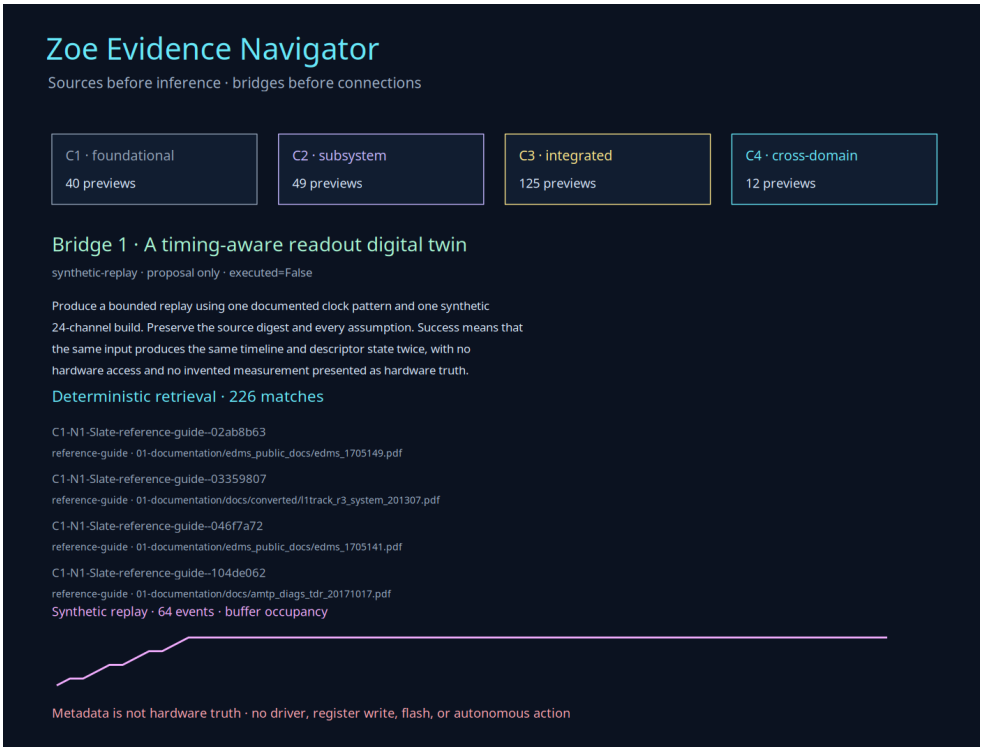

Zoe Leadership Garden

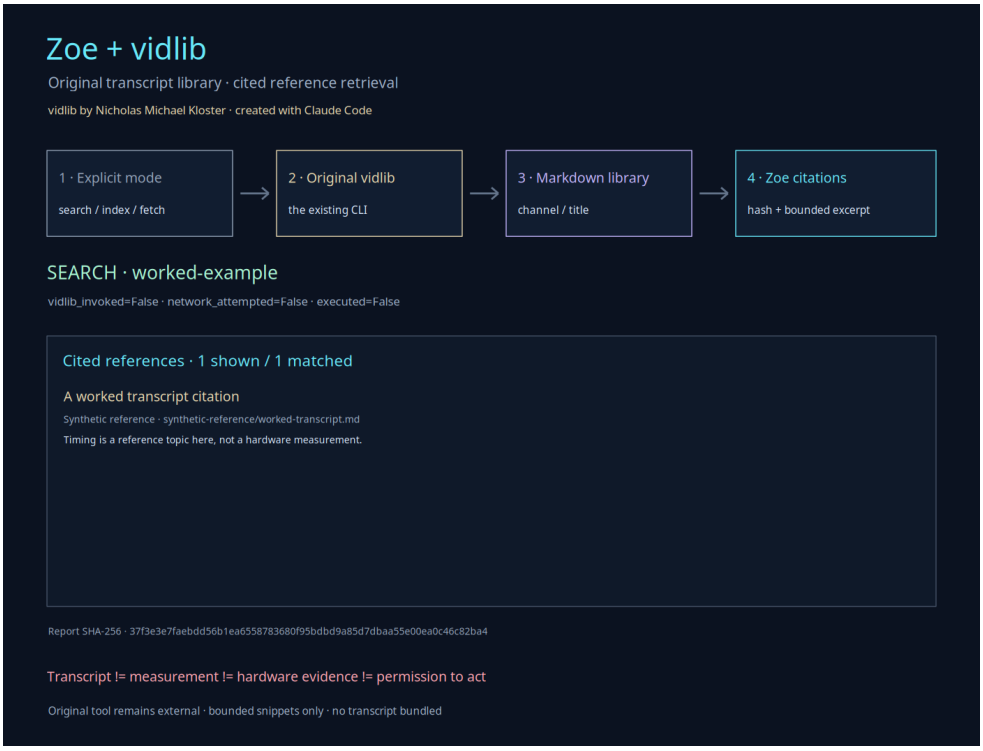

Zoe Maison

Zoe Evidence Navigator

Zoe + vidlib

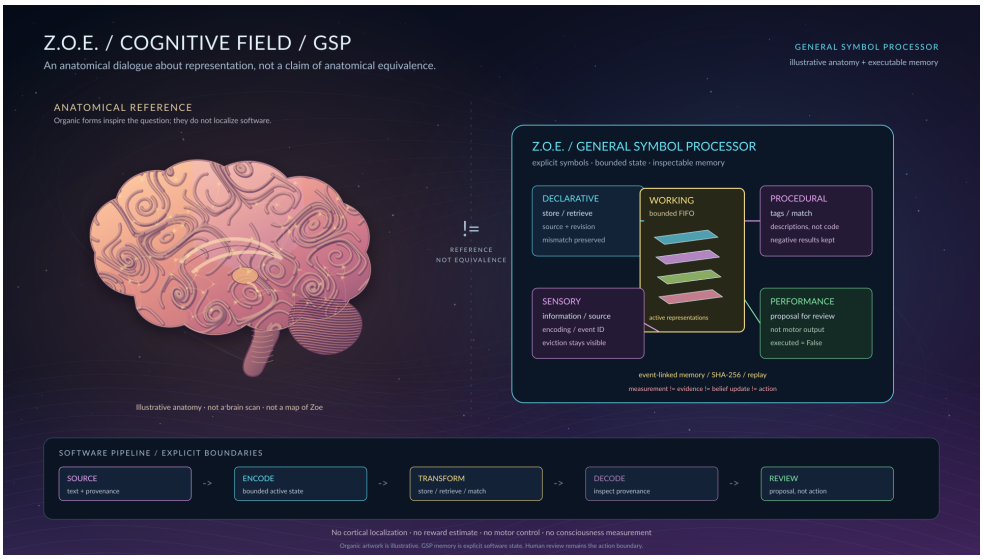

Project covenant

Zoe Constitution · Declaration of Creative and Epistemic Independence

The covenant documents define human agency, honesty, privacy, provenance, reversibility, accessibility, and the measurement/evidence/action boundary. They are project design commitments, not legal sovereignty or an authorization for autonomous action.

Provenance appendix

Cognitive Field visual provenance

The appendix retains the distinction between supplied visual references, original Zoe scenes, and actual native screenshots. Artistic comparisons are not executable cognitive models or medical evidence.

Rebuild the collection

From the Zoe repository root:

```
python guiai-lab/docs/render_visual_guides.py
```

The renderer requires Pandoc, pdfLaTeX, the `newunicodechar` LaTeX package, Poppler's `pdfinfo`, and `rsvg-convert` for inline SVG artwork. It replaces only generated visual PDFs and the manifest; it does not modify the source guides. Each PDF retains a linked table of contents where appropriate.

`visual/manifest.json` records the source filename, PDF title, page count, byte count, and SHA-256 for every generated document.
